| Labor and Materials to Plant Living Winter Snow Fence along right-of-way on Highway 63 near Atlanta, MO. The Winter Snow Fence will consist of several sections varying in length with the total of all the sections measuring approximately 2 1/4 miles. The Snow Fence will consist of 400 Wild Plum, 200 Eastern Red Cedar, and 200 Cleveland Pear trees. The trees are to be 4-5 feet tall not including the root ball. Trees will be planted in a single row along the right-of-way and spaced 15 feet apart. The planting sequence of the three tree species will be determined by the MoDOT Roadsides Supervisor at the beginning of project. The trees are to be guaranteed to have 100% survival rate for the 1 <sup>st</sup> year following planting. All trees not surviving the initial one-year period will be replaced by the awarded contractor at no additional charge. No lane closures will be required to enable the contractor to perform the work, but it is likely that the contractor will have to park equipment on the shoulder. The contractor will be responsible for setting up the work zone as outlined by attached drawing # TA-3. | \$32,000.00 | \$39,320.00 | \$51,625.00   |
